### VICE-PRESIDENT SVETLANA JAKIMOVSKA MET WITH A DELEGATION FROM THE EU HARMONIZATION COMMITTEE OF THE GRAND NATIONAL ASSEMBLY OF THE REPUBLIC OF TURKEY

During the meeting, both sides concluded that the good and stabile relations between the Republic of Macedonia and the Republic of Turkey are characterised with friendship and mutual understanding on bilateral level, as well as on multilateral level within the frames of the international organizations. The Republic of Macedonia highly appreciates the constructive support and solidarity from the Republic of Turkey, as well as the principle to use the constitutional name of our country.

The Republic of Macedonia and the Republic of Turkey are also connected through strong historic and cultural links. The Turkish minority in Macedonia and the Turks who have migrated from Macedonia in Turkey are significant chain of the friendship between the two states. Turkey is also an important trade partner, being one of the top ten countries of the Republic of Macedonia's major trade exchange in the past years. Nevertheless, both sides stated that the economic cooperation should be increased with significant investments from the Republic of Turkey in the Republic of Macedonia.

## THE PRESIDENT OF THE REPUBLIC OF ALBANIA, H.E. BAMIR TOPI, ADDRESSES BEFORE THE MEMBERS OF THE ASSEMBLY

President Topi started his address by underlining that in the past several years the two states worked hard to achieve the today's high level of cooperation, since, as he said, politicians have the obligation to serve their countries and nations and that building friendly and good-neighbourly relations is in the interest of both countries and nations. This cooperation is not limited on bilateral relations alone; it includes the regional dimension as well, such as the development of the grand project - Corridor 8, and projects in the field of energy, infrastructure, roads, marine and railway transport, and telecommunications. "By allowing free movement of our citizens, we increased the trust between our people and made the Albanian-Macedonian border into a safe and modern European border. Our countries are strongly determined to their mutual Euro Atlantic goals and our dedication, focus, and efforts are the only way to enable our citizens to be part of the large European family, to increase the number of friends, and to secure that our countries will develop in peace, stability and sustainable welfare. This is a historical obligation and there is no time to waste. These efforts are for the future of our children, and at the same time appreciation for the efforts of the previous generations dedicated to development of peace and democracy" said Mr. Topi.

The membership of Albania in NATO and the progress of Macedonia in the EU should not be seen as a contest between the states; on the contrary, the achievements and success of every neighbouring country increase the confidence of the citizens that integration is a real and tangible process. Mr. Topi welcomed Macedonia's decision to recognize the independence of Kosovo, as a significant message of peace and stability in the region and the demarcation of

the border between the two states. At the end, President Topi concluded that the Ohrid Framework Agreement continues to be an example not only of a political compromise, but also of the multiethnic peace achieved in the Republic of Macedonia and that its full implementation is the key element for the stability of the state, placing all citizens of Macedonia on an equal basis before the law and the Constitution and guaranteeing rights of the minorities – the right to study in their mother tongue and use their language, respect of their national, historic and cultural symbols and their equitable representation in state institutions.

Macedonia is a candidate state and it belongs to the states which advanced in the relations with the EU. Macedonia cannot miss this enlargement momentum of the Union", said Mr. Moratinos.

The Spanish Minister said that the Macedonia is implementing the economic and the social reforms needed for the European future of the state. The Council Chair, Ms. Radmila Shekerinska, said that besides solving the name issue, the country should also make the necessary reforms and fulfill the standards for EU membership and that both this Council and the Assembly of the Republic of Macedonia will continue to work on the accomplishment of these standards.
