I hope that European approach will prevail among European leaders, with greater sensitivity to the name issue in finding a model similar to the Slovenian-Croatian model, since despite the challenges and obstacles along the way I remain convinced that it can be implemented. Republic of Macedonia, which has invested so much in achieving European values and goals, deserves soon to get a date for negotiations with the European Union, with parallel activities for finding solution to all open issues in the process.

The Joint Parliamentary Committee in this term in the two parliaments has maintained the continuity of meetings in the spirit of consensus and good will. I sincerely hope that at the next meetings we will work in full composition and we will manage to overcome the current

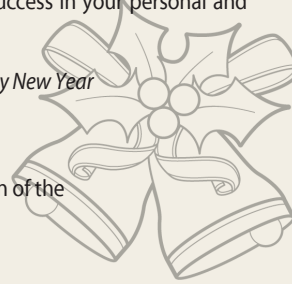

situation with the continued support of our European colleagues, because it is aimed at achieving full democratic legitimacy and is an important element for further positive development of overall relations between the Republic of Macedonia and the European Union.

Allow me, on behalf of the delegation from the Assembly of the Republic of Macedonia in the JPC - EU and Republic of Macedonia and on my personal behalf, to wish you good health and success in your personal and professional life in 2015.
